After cleansing... TAKE CARE OF YOUR SKIN

Give it that extra dose that your skin needs with the turn of the seasons: the **Ultra moisturising Serum with hyaluronic acid** provides and retains skin water, creating a natural hydration barrier. It is especially indicated for dehydrated skins that feel tight, itchy, dry, or are affected by the effects of a peel, hormonal changes, or environmental agents. If you still need an extra plus, use the **Khanya Hyaluronic Booster**: a concentrate with Phytocelltec™, an active principle based on apple stem cells which helps to mitigate wrinkles. Hyaluronic acid molecules moisturise the upper layers, making the skin look smoother and softer.
